MR. BODANZKY

Distinguished Conductor of the Metropolitan Opera House Writes His Impressions of the KNABE-AMPICO

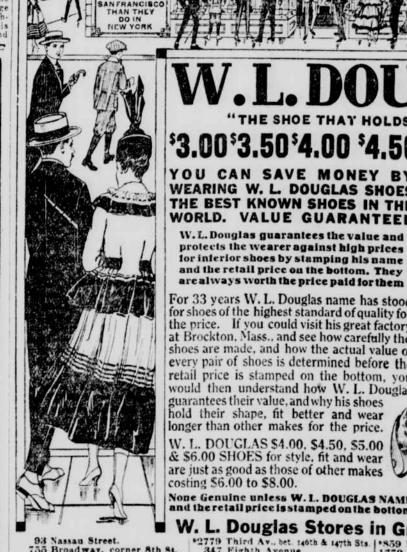

"While listening to the marvelous interpretations of the world's masters of the pianeforte, I was enchanted by its human touch, exquisite coloring and dynamic precision. These amazing characteristics, combined with the superb qualities of the Knabe Piano, give the world an instrument of perfection. It creates the impression that the Artist is personally playing."

ARTHUR BODANZKY.

Here is the "absolutely true reproduction of the playing of the world's master planists." but more than "absolute truth of reproduction" comes to you when you hear this marvelous instrument. You will feel that thrill, that sympathetic vibration of the body that you experience in those rare moments when you hear great music. So perfect is the art of the Knabedmeio that all thought of the reproducing action is lost. ducing action is lost.

In operating the Ampico no pumping or personal effort is required and, in addition to reproducing the playing of the world's great planists, it may be played by hand, as the ordinary plane, or with any 88-note roll, as the player.

You are cordially invited to attend demonstration of the Knabe-Am-ico in the Knabe Warerooms, Fifth Ave. at 39th St.
